VOLUME 83

1981

The New England Botanical Club, Inc.
Botanical Museum, Oxford Street, Cambridge, Mass. 02138

INDEX TO VOLUME 83

New scientific names are printed in **bold face**

- Acer (Aceraceae). The pollen morphology of the native New England species of the genus, 237-258
- Adams, Ralph M. *see* Saulea, Ruben P.
- Alabama and middle Tennessee. Further additions to some notes on the flora of the southern states, particularly, 301-315
- Alsophila aminta**, *nom. nov.* 149
- Angelo, Ray. *Pyrus sieboldii* (Rosaceae) naturalizing in Massachusetts 161-162
- Another station for *Conopholis americana* (Orobanchaceae) in New Hampshire 158
- Argentina. Taxonomic and nomenclatural notes on the flora of Isla de los Estados (Staten Island), Tierra del Fuego, 477
- Armeria maritima** subsp. **andina** var. **goodalliana**, *var. nov.* 488
- Aster 521-550. *A. acuminatus* 524, Map 526; *X blakei* 533, Map 537; *memoralis* 529, Map 532; Ecology 522; Habitat & distribution 524; Post-glacial history 533
- Aster acuminatus* Michaux and *A. nemoralis* Aiton (Asteraceae: Astereae). An ecological analysis of the distribution of, 521-550
- Astragalus equisolensis**, *sp. nov.* 457
- Astragalus* section *Desperati* (Leguminosae) and a new species from the Uinta basin of Utah 455-460
- Autecological aspects of *Diapensia lapponica* L. in Newfoundland 101-109
- Bahama archipelago. The genus *Oncidium* Sw. (Orchidaceae) in the, 87-100
- Belize. A list of the Dicotyledonae of, 161-236
- Bogle, A. Linn *see* Philbrick, C. Thomas
- Book review: An illustrated synoptical flora of Baja California 151-153
- Books received and literature for New England botanists, 474
- Boufford, David E. Another station for *Conopholis americana* (Orobanchaceae) in New Hampshire 158
- Britton, Donald M. *see* Sarvela, Jaakko
- Brouillet, Luc & Jean-Pierre Simon. An ecogeographical analysis of the distribution of *Aster acuminatus* Michaux and *A. nemoralis* Aiton (Asteraceae: Astereae) 521-550
- Bryological relicts in western Massachusetts. Late Pleistocene, 441-448
- Caltha** × **goodalliana**, **hybrida nova** 490; *see* Table 1, Distinguishing *Caltha dionaeifolia*, *C. appendiculata*, and *C. × goodalliana*, 493
- Cantino, Philip D. Change of status for *Physostegia virginiana* var. *ledinghamii* (Labiatae) and evidence for a hybrid origin, 111-118
- Cantino, Philip D. The *Physostegia purpurea* - *leptophylla* - *denticulata* problem: taxonomic and nomenclatural clarification 581-593
- Carex in Minnesota. New records of, 119-124
- Carices. Chromosome numbers of some northern New Jersey, 461-464
- Centratherum and *Phyllocephalum* (Compositae: Vernoniaeae). Taxonomic revision of, 1-24
- Centratherum and *Phyllocephalum* 1-24. Centratherum 14, Key 15;

- C. confertum*, *nom. nov.* 21; *C. punctatum* Cass. *ssp. australianum*, *ssp. nov.* 21; *C. punctatum* Cass. *ssp. fruticosum*, *ssp. nov.* 20; Chromosome numbers 4, fig. 6, 7; Distributions—*Centratherum* 16, *Phyllocephalum* 11; Doubtful and excluded species, 23; *Phyllocephalum* 9, Key 10; *P. indicum*, *comb. nov.* 12; *P. scabridum*, *comb. nov.* 10; Pollen 2, fig. 5; Pollen stainability 4; Summary of generic character differences 9; Trichomes 2, fig. 3
- Change of status for *Physostegia virginiana* var. *ledinghamii* (Labiateae) and evidence for a hybrid origin 111–118
- Cheilanthes* 133. *C. arequipensis*, *comb. nov.*; *C. concolor*, *comb. nov.*; *C. decora*, *comb. nov.*; *C. geraniifolia*, *comb. nov.*; *C. lonchophylla*, *comb. nov.*; *C. Lozanii*, *comb. nov.*; *C. skinneri*, *comb. nov.*; *C. venusta*, *comb. nov.*
- Chromosome numbers of some northern New Jersey *Carices* 461–464
- Chrysopsis* 323–384. *C. floridana* 360; *godfreyi* 363, f. *godfreyi* 365, f. *viridis* 365; *gossypina* 372, *ssp. cruiseana* 373, *ssp. hyssopifolia* 375, *ssp. gossypina* 377 (f. *decumbens* 381, f. *gossypina* 379, f. *trichophylla* 380); Historical review 325; Key to taxa 347; *lanuginosa* 362; *latisquamea* 365; *mariana* 349; *pilosa* 353; Relationships within, 337; *scabrella* 357; *subulata* 370; Systematic treatment 343
- Chrysopsis* (Nutt.) Ell. *nom. cons.* (Compositae: *Astereae*). A revision of the goldenaster genus, 323–384
- Church, George L. *see* Crow, Garrett E.
- Conant, David S. A new name for a Puerto Rican tree fern 149
- Connecticut. *Sarracenia purpurea* L. forma *heterophylla* (Eaton) Fernald: new to, 159–160
- Conopholis americana* (Orobanchaceae) in New Hampshire. Another station for, 158
- Countryman, William D. *see* Crow, Garrett E.
- Cranfill, Raymond, & Max E. Medley. Notes on the flora of Kentucky: New and interesting plants in Kentucky 125–131
- Crow, Garrett E., William D. Countryman, George L. Church, Leslie M. Eastman, C. Barre Hellquist, Leslie L. Mehrhoff, & Irene M. Storks. Rare and endangered vascular plant species in New England 259–299
- Cuttyhunk Island, Massachusetts: with an analysis of vegetational changes over the past half century. The flora of, 25–58
- Cyrtomium dubium*, *comb. nov.* 134
- Day, Robin T., & Peter J. Scott. Autecological aspects of *Diapensia lapponica* L. in Newfoundland 101–109
- Diapensia lapponica* L. in Newfoundland. Autecological aspects of, 101–109
- Distribution and abundance of *Eupatorium leucolepis* var. *novae-angliae* 449–454
- Drosera anglica* Huds., new to New England 163–165
- Dudley, T. R. Taxonomic and nomenclatural notes on the flora of Isla de los Estados (Staten Island), Tierra del Fuego, Argentina 477–519
- Dwyer, John D., & David L. Spellman. A list of the Dicotyledonae of Belize 161–236
- Eastman, Leslie M. *see* Crow, Garrett E.
- Eastman, L. M. *Drosera anglica* Huds., new to New England 163–165
- Ecogeographical analysis of the distribution of *Aster acuminatus* Michaux and *A. nemoralis* Aiton (Asteraceae: *Asteraceae*). An, 521–550

- Eupatorium leucolepis* var. *novae-angliae*. Distribution and abundance of, 449-454
- Euthamia* 551-579. *E. galetorum* 559; *graminifolia* 560, var. *graminifolia* 563, var. *major* 563, var. *nutallii* 564; *gymnospermoides* 564; *hirtipes* 569; History 551; Key to the species of, 557; *leptocephala* 570; Morphology 553; *occidentalis* 572; *pulverulenta* 573; Systematic treatment 556; Table 1, Comparison of *E. graminifolia* north of the Tension Zone in Wisconsin and *E. gymnospermoides* 568; *tenuifolia* 574
- Euthamia*. The taxonomy of the genus, 551-579
- Ferns of the Shawnee National Forest (Illinois) 433-440
- Ferns. Taxonomic and nomenclatural notes on, 133-137
- Field trip announcement. Inside back cover, April
- Field trip announcement: Mt. Washington, N.H. Inside back cover, July
- Flora of Cuttyhunk Island, Massachusetts; with an analysis of vegetational changes over the past half century 25-58
- Forestiera* (Oleaceae). The typification of the genus, 465-470
- Further additions to some notes on the flora of the southern states, particularly Alabama and middle Tennessee 301-315
- Galactia smallii*: a new name for *G. prostrata* Small 471-472
- Galactia smallii*, *nom. nov.* 471
- Gamochoaeta malvinensis*, *comb. nov.* 478
- Genus *Oncidium* Sw. (Orchidaceae) in the Bahama archipelago. The, 87-100
- Glime, Janice M., & Roanna Holcomb. *Tetraphis geniculata*: a new location for a rare moss in New England 156-157
- Grammitis magellanica* f. *nana*, *comb. nov.* 483
- Gymnocarpium robertianum* complex in North America. Studies on the, 421-431
- Hellquist, C. Barre. *see* Crow, Garrett E.
- Hellquist, C. Barre. The rediscovery of *Juncus stygius* in Maine 321-322
- Herndon, Alan. *Galactia smallii*: a new name for *G. prostrata* Small 471-472
- Holcomb, Roanna. *see* Glime, Janice M.
- Hydrocharis morsus-ranae* (Hydrocharitaceae): new to the United States 147-148
- Hymenophyllum* 134. *H.* subg. *Hymenoglossum*, *stat. nov.*; *H.* subg. *Rosenstockia*, *stat. nov.*
- Illinois. Ferns of the Shawnee National Forest, 433-440
- Instructions to contributors to *Rhodora*. Inside back cover, Jan.
- Isla de los Estados (Staten Island), Tierra del Fuego, Argentina. Taxonomic and nomenclatural notes on the flora of, 477-519
- Jones, Samuel B., Jr. Synoptic classification and pollen morphology of *Vernonia* (Compositae: Vernoniae) in the Old World 59-75
- Juncus stygius* in Maine. The rediscovery of, 321-322
- Karyotype relationships of native New World *Vicia* species (Leguminosae) 595-606
- Kentucky: new and interesting plants in Kentucky. Notes on the flora of, 125-131

- Kirkman, L. Katherine. Taxonomic revision of *Centratherum* and *Phyllocephalum* (Compositae: Vernoniae) 1-24
- Kral, Robert. Further additions to some notes on the flora of the southern states, particularly Alabama and middle Tennessee 301-315
- Lagenifera hartiottii**, *comb. nov.* 481
- Lagenifera nudicaulis**, *comb. nov.* 482
- Lassetter, J. Stuart. *see* Veerasethakul, Sudarantana
- Late Pleistocene bryological relicts in western Massachusetts 441-448
- Lemon-scented *Pycnanthemum* (Lamiaceae). A, 145-146
- List of the Dicotyledonae of Belize. A, 161-236
- Literature for New England botanists 607
- Littlefield, Edward W. More on *Pinus Banksiana* in New York 317-318
- Maine. The rediscovery of *Juncus stygius* in, 321-322
- Massachusetts. Late Pleistocene bryological relicts in western, 441-448
- Massachusetts. *Pyrus sieboldii* (Rosaceae) naturalizing in, 161-162
- Massachusetts: with an analysis of vegetational changes over the last half century. The flora of Cuttyhunk Island, 25-58
- Matekaitis, Penny. *see* Sørensen, Paul D.
- Medley, Max E. *see* Cranfill, Raymond
- Mehrhoff, Leslie L. *see* Crow, Garrett E.
- Microlepis concinna**, *nom. nov.* 135
- Minnesota. New records of *Carex* in, 119-124
- Mitchell, Richard S. *see* Roberts, Marvin L.
- Mohlenbrock, Robert H. Ferns of the Shawnee National Forest (Illinois) 433-440
- More on *Pinus Banksiana* in New York 317-318
- Muir, M. A. *see* Stutts, John G.
- NEBC Field trip: New Haven, Connecticut 475-476
- Neese, Elizabeth, & Stanley L. Welsh. *Astragalus* section *Desperati* (Leguminosae) and a new species from the Uinta Basin of Utah 455-460
- New and interesting additions to the flora of Nova Scotia 139-140
- New England. *Tetraphis geniculata*: a new location for a rare moss in, 156-157
- New England. *Drosera anglica* Huds., new to, 163-165
- New England Notes:
Another station for *Conopholis americana* (Orobanchaceae) in New Hampshire 158
Drosera anglica Huds., new to New England 163-165
Pyrus sieboldii naturalizing in Massachusetts 161-162
Sarracenia purpurea L. forma *heterophylla* (Eaton) Fernald: new to Connecticut 159-160
Tetraphis geniculata: a new location for a rare moss in New England 156-157
- New England. Rare and endangered vascular plant species in, 259-299
- New England species of the genus *Acer* (Aceraceae). The pollen morphology of the native, 237-258
- Newfoundland. Autecological aspects of *Diapensia lapponica* L. in, 101-109
- New Hampshire. Another station for *Conopholis americana* in, 158
- New Hampshire population of *Podostemum ceratophyllum* Michx. (Podostemaceae). Some notes regarding pollination in a, 319-321
- New name for a Puerto Rican tree fern. A, 149

- New Jersey Carices. Chromosome numbers of some northern, 461-464
- New records of *Carex* in Minnesota 119-124
- New records of tree ferns from Venezuela 141-143
- New World *Vicia* species (Leguminosae). Karyotype relationships of native, 595-606
- New York. More on *Pinus Banksiana* in, 317-318
- North America. Studies on the *Gymnocarpium robertianum* complex in, 421-431
- Notes on the flora of Kentucky: New and interesting plants in Kentucky 125-131
- Notes of publication:
CBE Style Manual, 4th edition 473
Scientific Writing for Graduate Students 473
Vascular Plants of Continental Northwest Territories, Canada 155
- Nova Scotia. New and interesting additions to the flora of, 139-140
- Odontosoria 135. *O. Killipii*, *comb. nov.*; *O. spathulata*, *comb. nov.*
- Old World. Synoptic classification and pollen morphology of *Vernonia* (Compositae: Vernonieae) in the, 59-75
- Oncidium* Sw. (Orchidaceae) in the Bahama Archipelago. The genus, 87-100
- O'Neill, Sharman D. The flora of Cuttyhunk Island, Massachusetts: with an analysis of vegetational changes over the past half century 25-58
